DETAILED ACTION

Amendment

1. Receipt is acknowledged of the Amendment filed December 27, 2007.

Allowable Subject Matter

2. Claims 16-26 and 28-32 are allowable over prior art.
3. The following is an examiner's statement of reasons for allowance: The best prior art of record, taken alone or in combination, fails to specifically teach or fairly suggest the method, system, or computer program product for conducting a transaction using a cashier-side unit and customer-response unit as is disclosed in the currently amended claims. Although prior art has teachings of communicating customer information from a customer-response unit to a cashier-side unit, the specific data communications and the collection server which receives the data is not disclosed in prior art. Specifically, prior art fails to teach determining whether a customer response to the content is received, wherein the received response is transmitted to an advertisement server to collect information about the customer and when the response is received, a non-response is generated and transmitted to the advertisement server to collect information about the customer when the response is absent. Teachings in prior art only include transmitting non-absent responses whereas the claimed invention actually uses the an absent response for collection of customer data to the advertisement server. The above disclosed limitations are not taught in prior art and moreover, one of ordinary skill in the art would not have been motivated to come to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
